

BECOMING A LEADER IN THE LIFE SCIENCES

Your pathway to career success starts here

A program designed to meet the professional development needs of those seeking careers and career advancement in the emerging life sciences industry

Over 160 life sciences companies in the Buffalo-Niagara region alone!

September 21, 2011 – November 9, 2011 (8 sessions)

Wednesdays 5:30PM to 7:30PM

Zebro Room, NYS Center of Excellence in Bioinformatics and Life Sciences
701 Ellicott Street - Buffalo, NY 14203

\$399 per participant - student discount available.

Primary Instructor:

Charlie d'Estries - Director of SciBiz International. Mr. d'Estries is an accomplished business management executive who has substantial consulting experience with life sciences companies across the U.S.

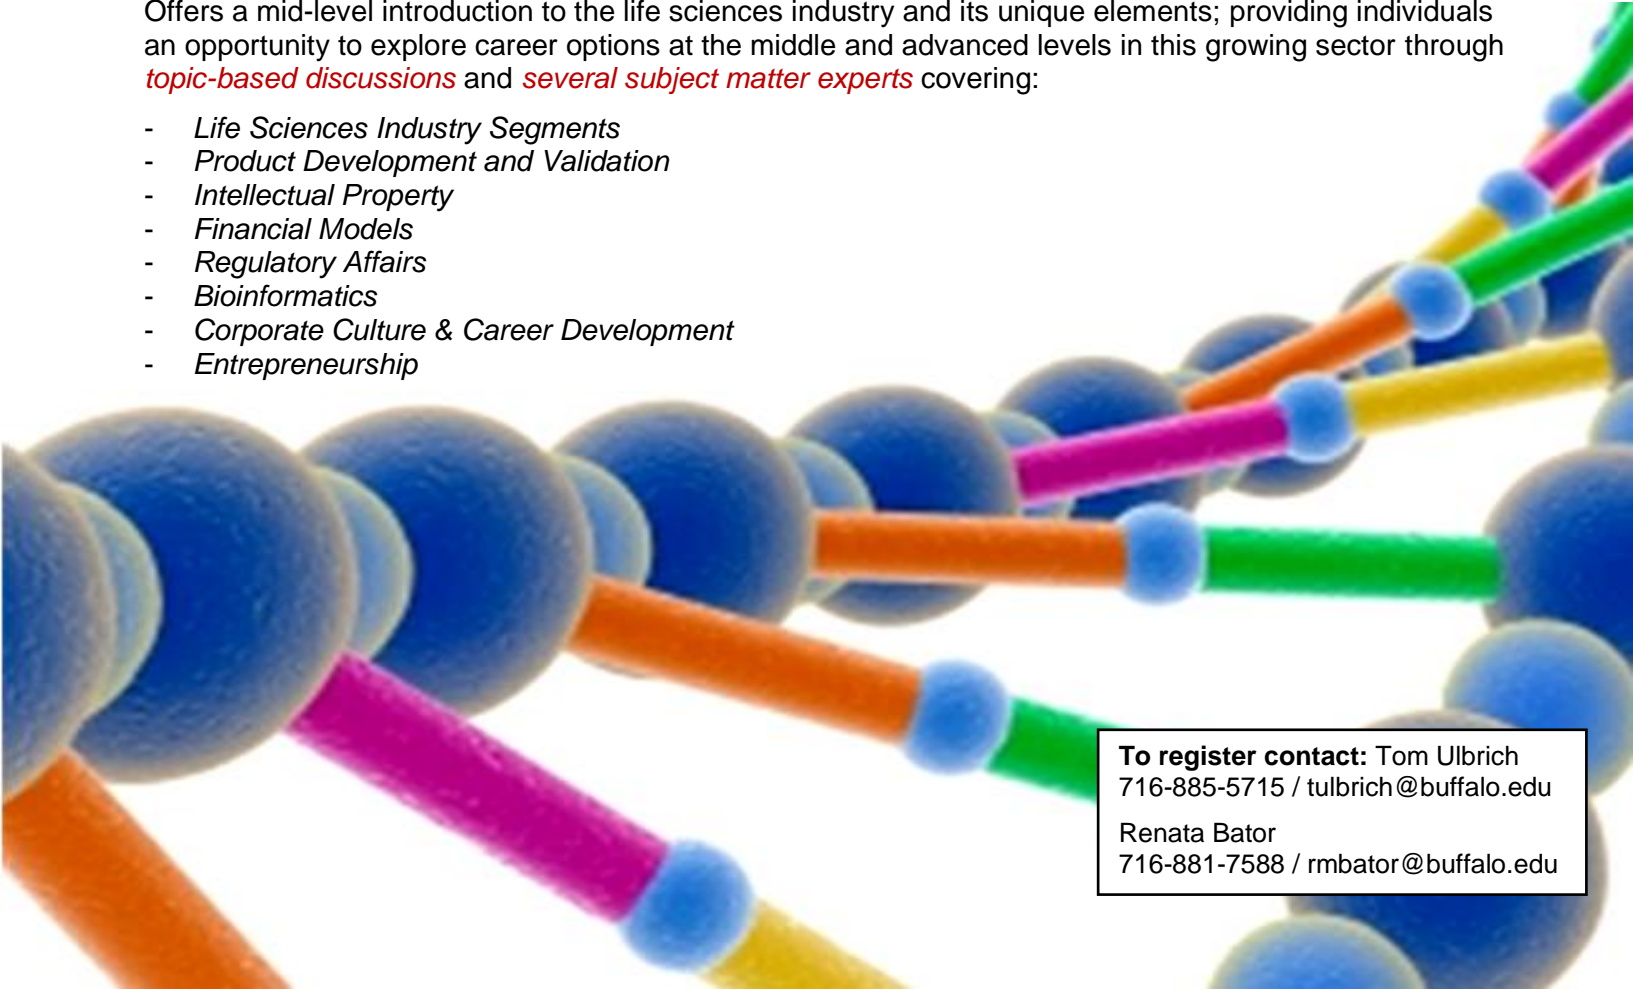

Who Should Enroll?

Individuals with work experience from any industry now interested in a life sciences career; Masters or Doctoral-level students considering mid-level to advanced career opportunities in the life sciences; and current employees in the life sciences industry seeking a higher level and/or entrepreneurial position within their own companies.

Program Overview:

Offers a mid-level introduction to the life sciences industry and its unique elements; providing individuals an opportunity to explore career options at the middle and advanced levels in this growing sector through *topic-based discussions* and *several subject matter experts* covering:

- *Life Sciences Industry Segments*
- *Product Development and Validation*
- *Intellectual Property*
- *Financial Models*
- *Regulatory Affairs*
- *Bioinformatics*
- *Corporate Culture & Career Development*
- *Entrepreneurship*
